

#3776 CENTURY  
10<sup>TH</sup>  
ANNIVERSARY

## "DECADE"

Ten years since the birth of the revolutionary #3776 CENTURY fountain pen, DECADE opens up the new era

### Forty-four years since the first #3776 model was launched

The #3776 model was developed in 1978 in collaboration with the late Mr. Haruo Umeda, a Japanese writer and a fountain pen collector, in pursuit of the ideal fountain pen. Named after Mount Fuji's altitude, Japan's highest peak, the pen conveys the hope of the company to create the best fountain pen in the country.

Thirty-three years later, in 2011, the #3776 "CENTURY" model was launched. Equipped with the "Slip & Seal Mechanism" that prevents ink from drying out, which had been an inevitable problem for a fountain pen, the innovative design has become Platinum Pen's iconic model and has been lovingly used by a large number of customers.

In commemoration of the 10th anniversary of the #3776 CENTURY, we are launching a special limited edition to mark the new beginning of the series. Only 3,776 pcs will be produced for this model.

### A tribute to the long-lived history

As a symbol representing the development history and the innovation from the past to the present of #3776 CENTURY, the limited edition has been designed by incorporating the distinctive gathered surface of the #3776 model into the body of the current design.

While retaining the visual impressions of the original design, the limited model has adopted a nearly-flat crown, exuding a nostalgic and elegant feel. A logo commemorating the 10th anniversary is printed on the crown while the tail cap is engraved with a serial number.

Newly designed 14K gold nib suited for the commemorative model

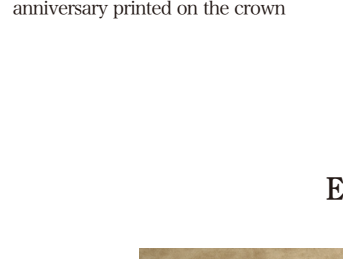

The engraving finish on the cap ring provides a beautiful shading

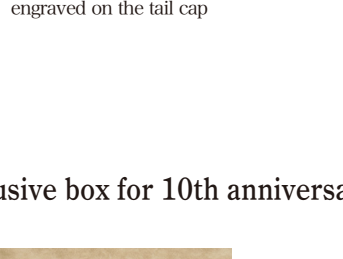

The iconic gathered surface of the first #3776 model is incorporated into the body and the cap

The nearly-flat top and the decoration exude a nostalgic and elegant feel

A logo commemorating the 10th anniversary printed on the crown

Comes with a unique serial number engraved on the tail cap

# 1 Black in black

### Exclusive box for 10th anniversary limited edition

The interior packaging with a calming matted monotone coloring

The box can be inclined by turning the top lid to the rear

Accessories  
• 10th anniversary special color ink "Fuji-kon" 20 ml  
• Converter-800A  
• One blue black cartridge ink

### #3776 CENTURY 10th anniversary special color ink "Fuji-kon" 20 ml

The ink color is inspired by the image of the dark blue sky over Mt. Fuji turning into reddish hue of the rising sun. Fuji writing into reddish hue of the rising sun. Enjoy the writing lines that look reddish depending on the reflection of light.

"DECADE"

In commemoration of the 10th anniversary of the #3776 CENTURY, a special limited edition is brought to life to mark the new beginning of the series.

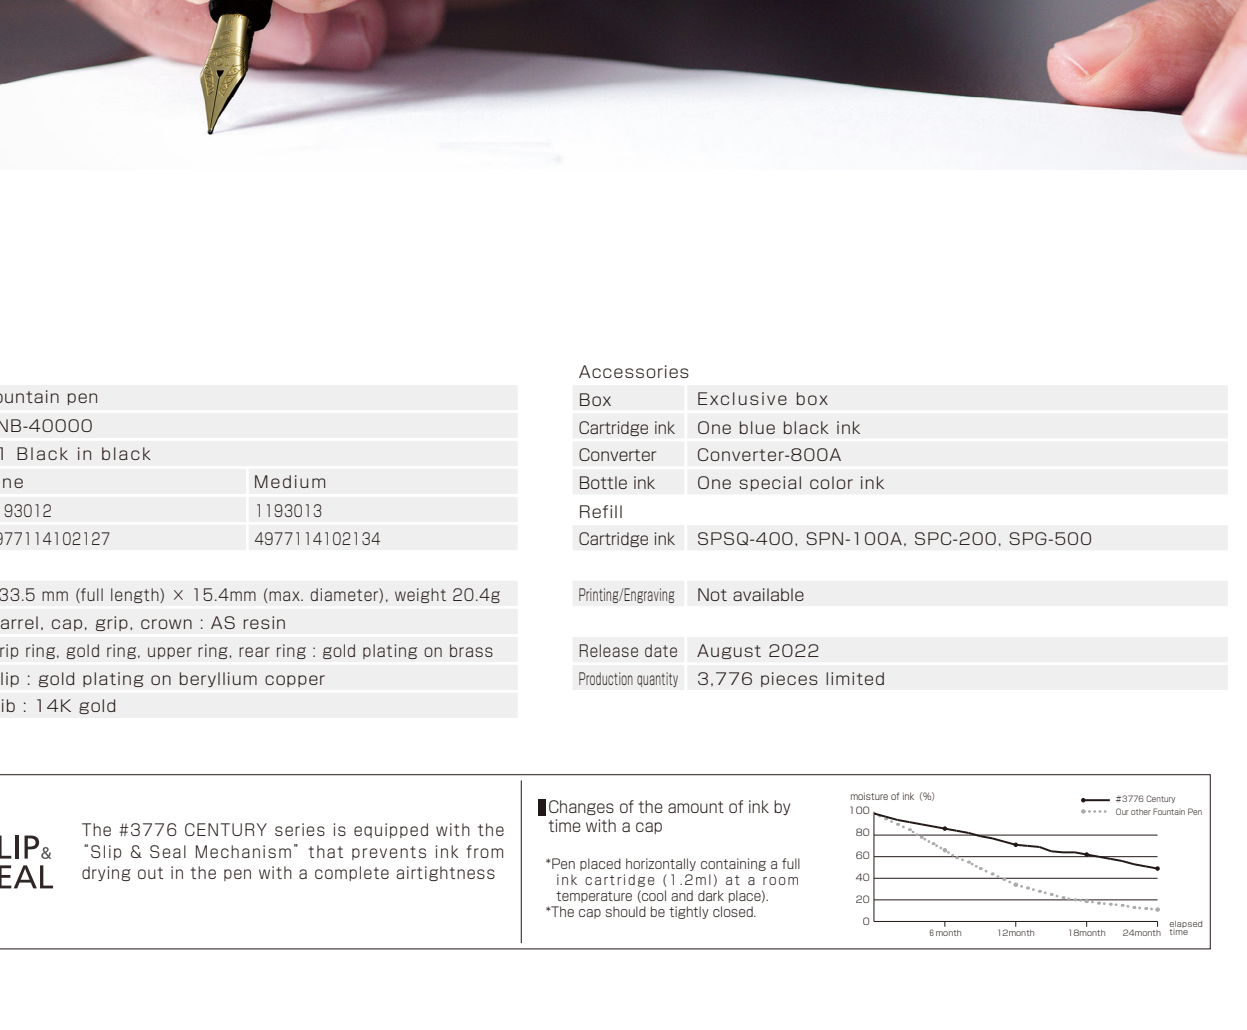

The gold nib remodeled for the first in 10 years

Our never-ending pursuit for the ideal fountain pen that led to the creation of #3776 will be passed on to the next models of the #3776 CENTURY. This time, in creating the special limited edition, we have also developed a new pen nib, which has a linear form reminiscent of the original #3776 nib. Yet, using the current nib design as a base, a new writing feel with great flexibility is achieved.

As shown in the comparison of the nib's flexibility on the left, the new pen nib is soft and flexible. The curve of the graph indicates that the new nib allows you to easily adjust flexibility with the writing pressure applied.

## #3776 History 1978 ~ 2022

## #3776 CENTURY "DECADE"

Product name	Fountain pen
Product number	PNB-40000
Barrel color	#1 Black in black
Nib	Fine Medium
